Expected Result :	User logs in successfully
Actual Result :	User logged in successfully

Report

● Conclusion and Recommendations :

Pass Rate: 95% , Minor Improvements Required

Issues Found and Their Solutions

1. Improve Login Security

Implement **Two-Factor Authentication (2FA)** and enforce strong password policies to enhance account security.

2. Better Registration Validation

Provide real-time validation for email, mobile number, and password to reduce invalid registrations.

3. Improve Error Messages

Show simple and user-friendly validation messages for incorrect login credentials, invalid inputs, and failed payments.

4. Strengthen Session Management

Automatically log out inactive users after a predefined time to improve account security
