Summary of test case

Summary Of Test Results

Total Test Cases - 10
Passed - 10
Failed - 0
Pass % - 100%

Bug Reports :

1.

Field	Description
Test Case ID	**101**
Requirement ID	**R001**
Module Name	**Login**
Feature Under Test	**User Login**
Test Scenario	**Verify login with valid credentials**
Test Objective	**Ensure registered users can log in successfully.**
Test Type	**Functional Testing**
Test Technique	**Black Box Testing**
Priority	**High**

Severity	**Critical**
Preconditions	**Snapchat app is installed and login screen is displayed**
Postconditions	**User reaches Home Screen**
Test Environment	**Windows 10**
Browser	**Google Chrome**
Test Data	**divyanshi123 / Test@123**
Expected Result:	**Login Successful**
Actual Result:	**Login Successful**
Status	**Pass**
Executed By:	**Divyanshi Panchal**

Report

• Conclusion and Recommendations :

Pass Rate: 90% – Needs Improvement

Issues Found and Their Solutions

1. Better Network Error Handling

Issue: During poor internet connectivity, the application sometimes displays generic error messages.

Recommendation: Show clear messages such as **"No Internet Connection"** or **"Please Try Again Later"** with a retry option.

2. Camera Permission Guidance

Issue: If camera permission is denied, users may not know how to enable it again.

Recommendation: Display a helpful message with a shortcut to the device settings for granting camera permission.

3. Story Upload Progress

Issue: Users do not always know whether a story is uploading successfully.

Recommendation: Display a progress indicator while uploading stories and notify users when the upload is complete.

4. Improve Password Visibility

Issue: Users may enter incorrect passwords because they cannot verify what they have typed.

Recommendation: Add a visible **eye icon** to show or hide the password during login.
