Test case TC-05: Positive Login test

(Accepted)

- Enter @#$%^ in username
- Login

Summary of Test Case

Summary Of Test Results

Total Test Cases - 12
Passed - 6
Failed - 6
Pass % - 50%

Bug Reports :

1.

Field	Details
Test case_id	TC-01
Bug ID	BUG-001
Defect Title	Login successful with empty Username and Password
Module Name	Login
Feature Affected	User Authentication
Defect Description	System allows login without mandatory credentials.
Defect Type	Functional Bug
Severity	High
Priority	High

Environment	Windows 11, Chrome Browser
Reported By	Divyanshi Panchal
Date Reported	03/08/2026

2.

Field	Details
Bug ID	BUG-001
Bug Summary	Login succeeds with empty credentials
Module Name	Login
Severity	High
Priority	High
Steps to Reproduce	Open Login Leave fields blank Click Login
Expected Result :	User should see validation message
Actual Result :	User logged in without credentials
Assigned To	Developer Team
Status :	Open

Report

Conclusion and Recommendations:

Pass Rate: 75% , Needs Improvement

Issues Found and Their Solutions

1. Better Error Messages

Issue: Validation and error messages are either missing or unclear.

Recommendation: Display meaningful, user-friendly messages that clearly explain the problem and guide users to correct their input.

2. Password Visibility Toggle

Issue: Users cannot easily verify the password they entered.

Recommendation: Add a password visibility (eye) icon to improve usability while maintaining security.

3. Regression Testing

Issue: New fixes may introduce additional defects.

Recommendation: Perform regression testing after every bug fix to ensure existing functionalities continue to work correctly.
